

Stories with Art : **Jamini Roy**

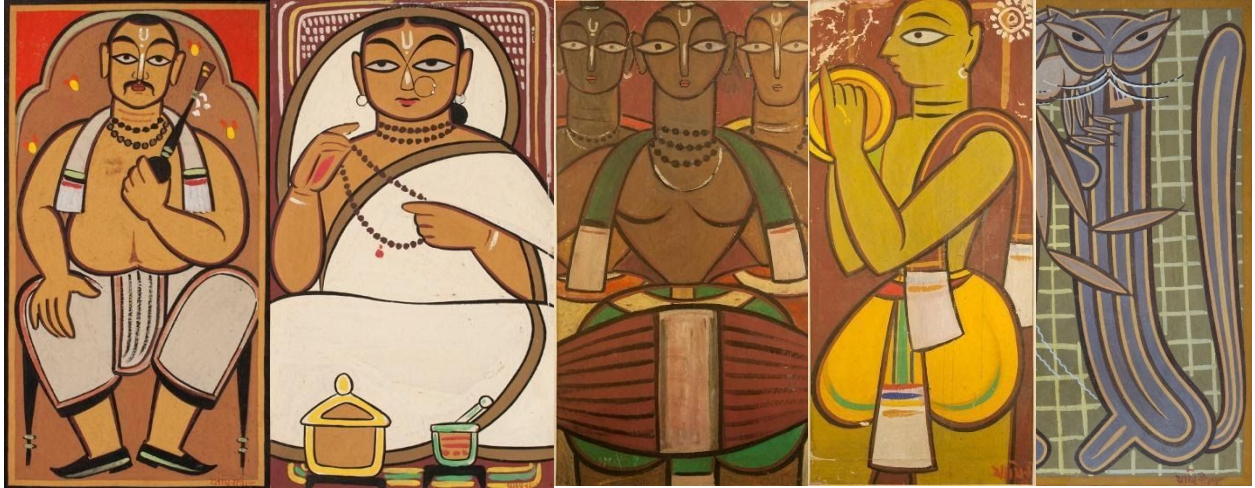

Jamini Roy's paintings usually included everyday people, everyday activities, mythological stories, tales of gods and more. If you've gone through *The Alchemist: Jamini Roy*, you might have come across a few of his stories.

Here are a few more characters from his world. Can you give them names, characters, different roles and create a story around them? You don't have to include *all* of them, but try using at least two of them. You could even role play this as a family or with friends for extra fun, once you're done!
